Client References:

“Thank you so much for your heart-centered, open-minded, clear-sighted ability to help us navigate these complex matters, and your profound grace through it all, which in my eyes really is a gift... I too hope we can work together again and look forward to doing so ... I also appreciate you creating a path for "not needing you." I too want to do the same with the people I work with.” D.W., Principal at Organizational Development Client, August 2023

“It has been a pleasure working with you and I will offer positive references if they are requested.” C.D., Board Chair, Nonprofit Startup Client
