

Dear MTI Maine Entrepreneurial Resource Core Team,

I am writing to express my support for William Richards, and his endeavours under the Newton Dynamics brand.

William Richards is a bright engineer with demonstrable success using the NI platform to deliver automated test solutions. He has extensive experience analyzing client use cases and working with multiple architectures to implement supportable solutions. William is friendly, approachable, and readily shares his expertise with his clients leading to a strong client – provider trust relationship.

I highly recommend Newton Dynamics for providing scalable and extensible engineering solutions in the test and measurement space.

Chris Cilino
Senior Project Engineer
