

PORTLAND HEARTS OF PINE

As a multidisciplinary creative, Trevor is an absolute pleasure to work with. Having hired him for both photography and videography for Hearts of Pine, I can confidently say his work is exceptional. He has a remarkable ability to capture the genuine joy and energy of soccer fandom in both still images and video, and having someone who excels in both mediums is an enormous asset.

One of Trevor's greatest strengths is his versatility. For Hearts of Pine alone, he's created content for everything from tattoo events and soccer watch parties to match-day coverage and highly specific creative projects with detailed briefs. No matter the assignment, you can trust that Trevor will deliver thoughtful, high-quality work that brings the vision to life.

Beyond his creative talent, Trevor is reliable, detail-oriented, and consistently delivers on time. He has an outstanding eye, a strong creative vision, and brings a positive, collaborative attitude to every project. I can't recommend him highly enough.
