- ☐ Targeted Sales Training

Grants

- ☐ Grant Writing

Additional Documents

1. Please attach two, **written client references** from past clients as a single document to your application. These references will be used to assess your fit for the MERC program and will also be sent to MERC clients.
2. Please attach a document outlining a **pricing structure for all services noted above**. We understand fees may vary by project; however, we would like to provide some sense of your costs to potential clients. In this case, please provide a price range and/or average price for each service. We expect the final cost to be negotiated between the consultant and client.

Example Fee Schedule: "Fees range from \$60-\$120/hour depending on the scope of the project and project deadlines. A final specific price will be determined after working with the client to develop an SOW for the project."

3. Optional: You may also include **one page** of marketing material to be sent to MERC clients as part of your company profile.
4. Please **review and sign** the "MERC Consultant Participation Agreement" found on the [MERC Consultant webpage](#).

Signature

By signing this document, I certify that the above information and required documents are correct, accurate, and complete to the best of my knowledge.

jhallal@networkblueinc.com

August 8, 2022

To Whom It May Concern:

We had the pleasure of working with Seabren Reeves on a financial modeling project for one of our clients in the retail industry. The project entailed detailed analysis of the past and future financial performance of a retailer and the creation of a financial model. Our work ultimately assisted the company to successfully raise many millions of dollars.

Seabren's work on the project was exemplary. He analyzed historical data, created ratios and metrics for the company including margins, growth rates and inventory turns/changes, and developed key assumptions. Seabren's diligent efforts resulted in a strong model and valuation of the enterprise all of which was instrumental to the company's fundraising efforts.

Throughout the process, Seabren exhibited great attention to detail and went above and beyond to build a compelling model. I personally enjoyed working with Seabren very much and admired his work ethic, analytical abilities and communication skills. I recommend Seabren without reservation.

Reevesly, LLC

Financial Modeling & Forecasting for Start-up, Small, & Medium-Sized Businesses

Purpose: Empower founders, entrepreneurs, and owners in their mission to accelerate growth, through sound financial data-driven decision-making.

SERVICES

Accounting & Finance

Design and build custom comprehensive financial forecast models to yield better decision-making for project and staff investments. The model ticks and ties Income Statement, Balance Sheet, Cash Flow Statement, and more, via embedded drivers and assumptions to help reach future state. This creates a protective moat around the business and reduces the perception of risk.

Consulting

Collaborate with clients to help manage their business operations. Advise on drivers and rationale in the model. Effectively share knowledge and coaching to ensure a sound understanding of the model's capabilities. Empower the business to actively maintain and leverage the model as a living and breathing asset.

Process:

Phase 1: **Accounting** – Assess businesses' current financial modeling data and financial management system, and wireframe format to ensure a more accurate and comprehensive future state asset. This phase has two Deliverables: 1) Align Driver Model & Outputs: What decisions need to be modeled. What inputs are required. How market entry is desired. Impact on capital requirements. How revenue or capital materializes. 2) Mock-up Outputs: How financials should look. Charts input into a pitchbook or funding applications.

Phase 2: **Finance** – Build the go-forward financial model and forecasts based on synthesis and analysis of data and insights derived from the Accounting Phase. This phase has two Deliverables: 1) Build 5-year Model grounded in reality: Income Statement, Balance Sheet, and Cash Flow Statement, etc.. 2) Create charts for pitchbook or capital funding applications (as needed).

Phase 3: **Consulting** – Deliver business acceleration capabilities by empowering the business to make informed data-driven decisions, via generation of data derived in the Accounting Phase, calibrated and applied to yield the inputs and outputs in the Finance Phase, and project duration communication and support activities. This phase has one Deliverable: Review, coach, and hand off the comprehensive Financial Model & Forecast, and charts (as needed).

PRICING

Option A: Cost-based approach / **\$200 per hour** for work, correspondence, meetings, and consultation.

Option B: Value-based approach / \$TBD cap (includes unlimited correspondence until hand off of model and up to 10 hours of post hand off for additional work, correspondence, meetings, and consultation).

Reevesly, LLC / Overview & Marketing

Reevesly, LLC President & Principal Consultant Seabren Reeves has 15+ years of Fortune 500 & 100 corporate technology experience, including as Product Owner of a \$10B BI portfolio at a Fortune 100 Insurer. He has 10+ years of start-up experience as co-founder of Bitzy Baby, LLC which successfully commercialized its multi-national utility patented safety product, won the \$10K USM Student Business Plan Competition, and was awarded numerous grants from Maine Technology Institute (MTI) and Libra Future Fund.

He is a strategy consultant for Babson College's Alumni Supporting Entrepreneurs (BASE) program, a certified coach for Babson's Coaching Leadership & Teamwork Program (CLTP), and serves on the MTI Tech Review Board as an investment consultant. He has evaluated 100+ business plans and financial models as a Board Trustee of the Libra Future Fund, through which he helped award 35+ grants to Maine entrepreneurs 18-29 years old who founded companies that have since raised \$25M+ Series B, \$2M+ Series A, increased GDP of the Maine and US economy, and successfully exited via strategic acquisitions. He was a Top 3 Finalist in the Babson MBA Graduate Student Business Plan and Financial Model capstone course, where he was an MBA Scholar and Manager of the Management Consulting Field Experience (MCFE) program. He has built and consulted on comprehensive financial models in the Private Equity sector resulting in multi-millions of dollars in investment.

Seabren holds several Tech Industry certifications, has a B.A. in BusinessEconomics from UMF, and an M.B.A. in Entrepreneurship from Babson College.
