

To Whom it May Concern at the Maine Entrepreneurial Resource Corps:

I would like to strongly recommend, **Mild Manor Media** and their team (Kevin and Katy) for the MERC program. As a media professional and producer of content for many Maine-based companies and startups, my production company (PREVW) has had great success working with Mild Manor.

They are by far the most competent, reliable, fair-dealing and talented video agency I've encountered. They are easy to work with; personable, professional, and punctual. I'm certain that all MERC clients and members will be glad to work with them directly on any and all media services. Their talent and versatility in both production, and post production (animation, motion graphics, and editing) is an asset for the startup community.

Thank you and looking forward to more collaborations with MTI and it's affiliates.
