

To whom it may concern,

I have had the pleasure of working with Marshall Merriam from Uphill Advisory as a mentor coach in my enrollment in the Maine Center for Entrepreneurs' Top Gun Program. My experience with Marshall has been nothing short of phenomenal. Upon being assigned to my company, Marshall immediately became invested in learning about my business so he could provide me with quality feedback, thoughtful suggestions, direction and most of all support as I look to the future as a small business owner. Marshall is passionate about all facets of business and especially the entrepreneurs at the heart of each business. He is incredibly smart with tons of expertise in many different areas and anyone that gets the opportunity to work with him will be incredibly fortunate. I would highly recommend him for MTI MERC clients.

Sincerely,
Caissie Roberts
