To whom it may concern:

Re: Letter of reference- Daniel Sheehan

I am pleased to provide this reference for Dan Sheehan, who served as Chief Information Officer at Puritan Medical Products for nearly five years. During his tenure, Dan played a critical role in modernizing our technology landscape and enabling business growth.

He led the implementation of a SaaS-based ERP system (Infor CSI) across our enterprise and manufacturing plants. Additionally, he partnered closely with our Quality and Regulatory teams to deploy an enterprise eQMS, creating a centralized and compliant platform for critical data and processes. Also, he led the successful adoption of advanced business intelligence capabilities with Microsoft Power BI, significantly improving visibility, analytics, and decision-making.

Dan led numerous additional IT and operational initiatives that drove measurable improvements across both the top and bottom lines of our profit and loss statement. He also strengthened and modernized our cybersecurity infrastructure, ensuring the protection of our systems, data, and intellectual property in an increasingly complex threat landscape.

As a trusted member of the executive team, Dan consistently delivered transformative initiatives while effectively managing our multi-site facilities.

I highly recommend Dan for any organization seeking a strategic and results-driven technology leader.

Sincerely,

Robert L. Shultz
President & Chief Financial Officer
