

Our company, Renewal Housing Associates LLC, has used All Over It for branding, copywriting, graphic design and website development services for a number of real estate development projects in Maine. Overall, our experience working with Mali Welch has been extremely positive. Mali has excellent creative and technical design skills. Perhaps, more importantly, she is a very good listener and communicator, and has always been very responsive to new requests. Mali is also detailed oriented and well-organized – a skill set which translates to consistently delivering work product on schedule. We have been very happy with the work that Mali has produced and we highly recommend All Over It for graphic design and branding services.
