Michael Gazzano, CEO of Benchmark Human Capital, shared his experience:

“The Endurance Group was instrumental in helping me create an AI that knows the US tax code inside and out, providing an invaluable reference tool for tax professionals. They also offered insightful business advice on how to scale our AI solution effectively. Thanks to TEG, we now have a powerful tool that enhances our service offerings and a clear strategy for growth. I highly recommend The Endurance Group for their exceptional technical and business acumen.”
