

bluShift Aerospace, Inc
2 Pegasus St, Suite 2
Brunswick, ME 04011

Dear MTI Maine Entrepreneurial Resource Core Team,

I am writing on behalf of bluShift Aerospace to express our strong support for Newton Dynamics, a vital contributor to Maine's business community. For several years, Newton Dynamics has been an indispensable partner in the development of our data acquisition and control systems for our rocket test stand and launch vehicle projects.

We have consistently been impressed by the expertise, technical acumen, and proactive approach of Thomas Law and the entire Newton Dynamics team. Their unwavering commitment to excellence has not only met but exceeded our expectations on numerous occasions. We believe that expanding their team and capabilities would significantly enhance the technical bandwidth of Maine's commercial sector, fostering innovation and growth within our state.

We wholeheartedly recommend Newton Dynamics for any support or initiatives that will enable their continued success and expansion.
