

PREVW Productions Testimonial for Inclusion in Vendor Program

To Whom it May Concern at MERC.

We worked with Pat and Erik at PREWV to produce content for our Startup Maine event. They helped us tell the story of our organization and the impact we've had on businesses and connecting individuals to resources, and captured the essence of the growing entrepreneurial ecosystem in Maine. They were ideal creative partners who helped us curate our vision and then conducted a number of interviews and coverage of our event to make a great set of videos for our website and brand.

They'd be a terrific addition to the media landscape in Maine as they continue to build on their great reputation for quality content, value and work culture. We'd definitely work with them again.
