

I have worked with Chris Shane on numerous video projects and it's always a pleasure. Chris is able to balance being personable with his professionalism. He is always buttoned up. Leading up to the shoots, he is collaborative, working back and forth to determine locations, shot lists, creative and other production preparation elements.

In the shooting environment, I have watched Chris stand on frozen lakes in wet slush, rushing rivers, crawling through the brush and generally doing whatever it takes to get the shots. When it comes to the act of shooting, either photography or motion, he has a great eye for composition, texture, and movement.

I would continue to partner with Chris moving forward and already plan to. I would absolutely recommend him for any job.

A handwritten signature in black ink, appearing to read 'Matthew Ketchum', with a stylized, flowing script.
