Dear MTI:

Mobile Price Card, Inc (MPC) has employed ME Startup Solutions for just over six months now to assist in financial reporting and investor communications. MPC is a startup in Maine with a small staff and as such everyone wears plenty of "hats". Having met Jayme during her time with MTI, she reached out to me to offer her services as she noticed that I was struggling to get reporting out in a timely fashion.

As the CEO, I was trying to balance my responsibilities of running the day-to-day business and keep up with communication to our investment pool. Since partnering with ME Startup Solutions, MPC's has vastly improved both the timeliness as well as the accuracy of our financial and KPI reporting.

Jayme has helped remove much of the stress I was feeling trying to balancing all my responsibilities and I would truly recommend ME Startup Solutions to any other startup; especially any that may be struggling with being over tasked and understaffed.

Sincerely,

Chad OLeary
